Dave was absolutely wonderful to work with on the Storyline piece we did about the amphibian crisis in Panama. His skills fully captured the beauty of amphibians, and we are very proud and honored to have been able to work with him. He wasn't just filming our animals and our story--- he sincerely cared about the subject. Thank you, Dave, for all that you've done for conservation.
Joe

Was very sad to hear of Daves passing. He was a dear old friend from his days in Duluth Mn. We all have many fond memories of Dave and all the fun we had. The gleem in his eye for life, the big smile on his face and a big harty laugh are one thing I will never forget. Best to Rick, Cathy and all the rest of the Aguars..

I had the honor to work and learn from Dave, he was a great man and one of the best cinematographer's i have met.

Rest in Peace.

Kleber

It has been a blessing to know and work with Dave for the past 7 years. We've worked together on many projects and I learned that being an artist merely scratched the surface in describing him. As much as he loved his art, it was his family that he brought him the most joy. He showed us how to keep our priorities in line. I'm thankful that Dave passed through my life. A genuine good person, he will be missed.

Name: Richard Parker

Email: Richard@colorbayinc.com **Number:** 29

Oh how he will be missed. I have known Dave since the 80's and more recently worked with him at ET and yes even Colorbay as a colorist on some of the projects he shot. Such a great talent but mostly what a great man.

It lifts the spirit to see Dave smile as he works in the video tribute. As an old friend of the family and especially of his brother Dan, I had warm memories of him as the remarkably kind big brother. He was a pioneer of that new medium no one in Athens had heard of before--"music videos"--and we all thought that was pretty cool. I hadn't seen him in a long time, though I heard something of him through Dan, so it was marvelous to watch the video and see how he lived out his dream and took pleasure in doing so. Serious yet smiling, in beautiful and interesting places, shoulder to shoulder with people who shared his passion. Rest gently, Dave. The images stay with us. Sympathy to all the Aguars. Alice Golembiewski Phillips

Dave... he is rooted in so many wonderful memories I have from living in Duluth circa 1967. From stringing ropes with pulleys across Congdon Creek, to Moog Electric, to many other true adventures that originated from the Aguar Home (and Basement). It is with great sadness that I have learned of his passing, but Dave will certainly live on in many of my fondest memories. Cathy and all family... my thoughts are with you. -Bob Maurer

I am somewhat new to the Turner Studios Department that Dave worked in: The Film and Video Unit. In the short time that I got to know him I was impressed with his easy attitude and the great pride he took in his work. I know that he was loved by many people here at Turner and will be missed.

These days I'm splitting my time between my work at Turner Studios and running my little antique shop in the North Georgia Mountains. I hadn't seen Dave in some time, but as fate would have it, he and his wife just happened to stop by the store, which is just four miles from the Appalachian Trail, a few weeks back. We had a pleasant visit, as I showed them around the place, and introduced him to my girlfriend Carol as someone that has worked at Turner "forever," as I have.

I feel very fortunate to have had that brief time to talk with Dave, and I'm reminded by the experience that we need to appreciate and enjoy every day, and take time to engage those we come in contact with, whether friend or stranger. In short, make each day count.

Thanks, Dave, for stopping by, on your way to an even better place.

I worked with his footage & met with him several times. His work was the best and his attitude unmatched. I had a chance to get to know Dave on a trip to Jamaica a few years ago. He was one of those, easy to know, friendly people. I am glad I had that time to get to know him. His loss was a shock, so vibrant, so full of energy. I am truly sorry for your loss. He was one of the best in so many ways. With God's grace we'll see him again.

I have known Dave and his brothers for close to 35 years. We worked together for Jerry Lewis, hung out together as friends, worked together again at Satin Touch, had fun together in our "Bad Movie Club", went to a couple REM concerts, and later in life, connected in a men's encounter group. I knew each one of his wives and got to know and love his grandparents. Dave never met a stranger and was always there for me if and when I needed him. I'm truly sorry that we drifted apart in the last few years, and I'm hurting now because our lives seemed to get too busy for each other...I will truly miss him and there is a hole in my heart that will never be filled...Dave, I will see you again someday.... -Tom

Dave will truly be missed. He had an incredible spirit and though we only worked together a few times, his passion for life and his work was infectious. All of us in Turner Sports that knew and worked with Dave have lost a true friend and talented man.

The Turner Studios family will certainly miss Dave, his talent and his spirit. Our best wishes to his family.
We keep him in mind.

"Death is nothing at all,
I have only slipped away into the next room,
I am I and you are you;
Whatever we were to each other, That we still are.
Call me by my old familiar name,
Speak to me in the easy way which you always used,
Put no difference in your tone,
Wear no forced air of solemnity or sorrow.
Laugh as we always laughed at the little jokes we shared
together.
Let my name ever be the household word that it always was.
Let it be spoken without effect, without the trace of a shadow
on it.
Life means all that it ever meant,
It is the same as it ever was, there is unbroken continuity.

Why should I be out of mind because I am out of sight?
I am waiting for you, for an interval, somewhere very near,
just around the corner.
All is well." -Henry Scott Holland

I am very sorry for your families loss. I am a father of 4 and I can only imagine how hard it is right now. I would like to say that I did not know Dave that well, we met a couple of times and my first impression was a good one, he was helpful and even though he did not know me he treated me like a friend and helped with what ever question I had. The stories of his dedication, vision and his abilities go around this place like a whirlwind. I am glad to have met him, I only regret not slowing down enough to get to know him better.

During the last ten years we were so very fotunate to have Dave as a member of our Turner family. Looking back on those years, they are filled with memories of Dave's continuing excellence, not as just a very talented cinematographer, but more importantly as a person who cared so much about the people around him. Though sadness fills our hearts, so does the vision of that wonderful smile and the memories of the kindness Dave exhibited constantly in life. Our lives are richer because Dave passed our way on life's journey. He will truly live forever in our hearts.

Dave was the big brother I never had. He always knew the right thing to do and was always the rock we needed. I learned so much from him and always had such a good time working and playing. I wish I could join you all on Sunday but my thoughts are certainly with you as are Carmens. I will miss all of my southern family. Love to you all . Hartley

It was 38 years ago that I met Dave and started hanging out in the basement of the Aguar family home in Duluth Minnesota, full of Indian spreads, loud Led Zepplin and Jimmy Hendrix music, and a maze of secret rooms to explore. As I was raising my 3 teenagers I thought often of how brave Berdeana was to let us all spend our weekends and after school hours over there safe and out of the cold and 9 foot snow drifts. How fast time passes and family connections evolve and become lost. I will always remember Dave as my first true love and the risk taker who accompanied me on many fun adventures, who taught me how to tune up a car engine and use power tools to build things, who himself could build anything and seemed completely unafraid to fix anything that was broken of a mechanical sort, who had a great creative sense and who obviously continued to grow and change in meaningful ways.
